Trumbull Continuing Education Summer Explorations 2021

We are proud of the quality of the Summer Explorations Program. The three areas of focus continue to be accelerating academic progress, providing enrichment camps, and offering a wide variety of sport opportunities.

It is our hope that your child will find more than one summer camp experience that fosters a specific skill, interest, or hobby. We encourage you to take advantage of the experiences available for your child.

To ensure the success of Summer Explorations, we encourage students and parents to work with and support all school staff in meeting our program objectives. For it is only through our joint efforts in pursuing our common goals that increased student expectations will be achieved.

If you have any questions, please do not hesitate to contact any member of the Summer Explorations staff.
